In Heber City I spent one full summer building., April until until three days before Christmas. I had charge of putting a roof on the North Central two story school house and fixed for the school two lower rooms. I had charge of the Red Sandstone business block containing a bank, , drug store and clothing store. We built a nice residence for John Austin, later sold to Dr. Merritt, also a home for Joseph R. Murddock, who was stake president. I came home three days before Christmas and haven't been back since. Two years later my lumber yard burned down so I lost most of my effort.
